StoryFACTORY

CHARTER OF RIGHTS

As a child-centric organisation, Story Factory will ensure that everything we do is done in the best interests of the young people we work with. To do this well we have developed a list of rights to guide the work of our staff and volunteers, but more importantly, to inform you about how you should expect to be treated in Story Factory workshops, at our two centres, in school workshops and online.

These rights are based on the National Principles for Child Safe Organisations and were developed in collaboration with Story Factory students, specifically our 2019 Novella cohort, and our 2020 Settlement Step Up Kids group.

YOUR RIGHTS:

Right to voice
through choice, opinion, feelings and emotions

Right to freedom of expression
to be heard

Right to learn
access to quality creative writing workshops

Right to be creative
do what you want unless it harms someone else

Right to be safe
physically and psychologically, in workshops and online

Right to be respected and treated fairly
in a non-discriminatory way

Right to be genuinely listened to
and involved in decisions that impact you

Right to be informed
about rights, decisions and opportunities

Right to privacy and confidentiality
give everyone the space that they need

Right to have fun and celebrate successes

If you feel that your rights are not respected, that our charter is missing something important or you just have questions, please let us know. We'd love to hear from you!
